+49 (0) 53 21 / 80031 (Mon-Fri. 8 a.m. – 4 p.m.)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

| Classification | H-Code |
|--|--------|
| Long-term (chronic) aquatic hazard, Category 2 | H411 |
| Flammable liquids, Category 2 | H225 |
| Serious eye damage/eye irritation, Category 2A | H319 |
| Aspiration hazard, Category 2 | H305 |
| Short-term (acute) aguatic hazard, Category 1 | |

2.2 Label elements

Pictogram(s):

Signal word:

Danger

| H-Code | Hazard Statements |
|---------------|--|
| H225 | Highly flammable liquid and vapour. |
| H305 | May be harmful if swallowed and enters airways. |
| H319 | Causes serious eye irritation. |
| H400 | Very toxic to aquatic life. |
| H411 | Toxic to aquatic life with long lasting effects. |
| | |
| P-Code | Precautionary Statements |
| P210 | Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. |
| P280 | Wear protective gloves/protective clothing/eye protection. |
| P271 | Use only outdoors or in a well-ventilated area. |
| P273 | Avoid release to the environment. |
| P305 + P351 + | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if |
| P338 | present and easy to do. Continue rinsing. |
| P337 + P313 | If eye irritation persists: Get medical advice/ attention. |

Page 2 of 15 Printing date: 15.06.2023

according 1907/2006/EG, Article 31 Date of last alteration: 07.11.2022 Version: 1.3 (RU) Debubblizer-SI

> Hazard ingredients (labelling): Hexamethyldisiloxane Isopropanol

2.3 Other hazards:

No data available.

Endocrine disrupting properties - human health: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Endocrine disrupting properties - environment: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

3.2.1 Chemical characteristics:

Polydimethylsiloxane with functional groups + solvent

3.2.2 Hazardous ingredients

| Туре | CAS No. | Substance | Content % | Classification* | Comment |
|------|----------------|---|-----------|--|---------|
| INHA | 107-46-0 | Hexamethyldisiloxane | >75 | Flam. Liq. 2; H225 Aquatic Acute 1; H400 Aquatic Chronic 2; H411 | Ma = 1 |
| INHA | 67-63-0 | Isopropanol | >10 - <20 | Asp. Tox. 2; H305 Flam. Liq. 2; H225 STOT SE 3; H336 Eye Irrit. 2A; H319 | |
| INHA | 27306-78- 1 | Poly(oxy-1,2-ethanediyl), .alpha methylomega[3- [1,3,3,3-tetramethyl-1- [(trimethylsilyl)oxy]disiloxanyl]propoxy]- | <3 | Aquatic Acute 2; H401 Aquatic Chronic 2; H411 Acute Tox. 4 by inhalation / dust/mist; H332 Eye Irrit. 2A; H319 | |

Type: INHA: ingredient, VERU: impurity

Ma = M-factor for acute aquatic toxicity Mc = M-factor for chronic aquatic toxicity

*Classification codes are explained in section 16.

This product does not contain substances of very high concern (Regulation (EC) No 1907/2006 (REACH), Article 57) in amounts above $\geq 0.1\%$.

Page 3 of 15 Printing date: 15.06.2023

according 1907/2006/EG, Article 31 Date of last alteration: 07.11.2022 Version: 1.3 (RU) Debubblizer-SI

| | General information: | Remove contaminated clothes at once. Where there is a risk of unconsciousness place and transport on one side in a stable position. |
|------|--|--|
| | After contact with the eyes: | Rinse immediately with plenty of water for 10-15 minutes and seek medical advice. |
| | After contact with the skin: | Wash with plenty of water or soap and water; immediately remove all contaminated clothing. In cases of sickness seek medical advice (show label if possible). |
| | After inhalation: | Move to fresh air, keep the victim laying down and restful. If breathing has stopped, give artificial respiration. If unconscious place in stable sideways position. Seek medical advice and clearly identify substance. |
| | After swallowing: | If conscious, give several small portions of water to drink. Do not induce vomiting. Seek medical advice immediately and produce the label or packaging. |
| 4.2 | Most important symptoms and effects, both acute and delayed: | Any relevant information can be found in other parts of this section. |
| 4.3 | Indication of any immediate medical attention and special treatment needed: | Further toxicology information in section 11 must be observed. |
| SECT | ION 5: Firefighting measures | |
| 5.1 | Extinguishing media | |
| | Suitable extinguishing agents: | Alcohol-resistant foam, carbon dioxide, water mist, |
| | Extinguishing media which must not be used for safety reasons: | sprinkler system, sand, extinguishing powder. Water jet. |
| 5.2 | Special hazards arising from the substance or mixture: | Risk of hazardous gasses or fumes in the event of fire. Exposure to combustion products may be a health hazard! Hazardous combustion products: toxic and very toxic fumes. |
| 5.3 | Advice for firefighters Special protective equipment for firefighting: | Use respiratory protection independent of recirculated air. Keep unprotected persons away. |
| - | ON 6: Accidental release measures | |
| 6.1 | Personal precautions, protective equipment and emergency procedures: | Secure the area. Wear personal protection equipment (see section 8). Keep unprotected persons away. Avoid contact with eyes and skin. Do not inhale gases/vapours/aerosols. If material is released indicate risk of slipping. Do not walk through spilled material. |
| 6.2 | Environmental precautions: | Prevent material from entering surface waters, drains or sewers and soil. Close leak if possible without risk. Contain any fluid that runs out using suitable material (e.g. earth). Retain contaminated water/extinguishing water. Dispose of in prescribed marked containers. Inform |

Page 4 of 15 Printing date: 15.06.2023

authorities if substance leaks into surface waters,

sewerage or ground.

according 1907/2006/EG, Article 31 Date of last alteration: 07.11.2022 Version: 1.3 (RU) Debubblizer-SI

| | | sewerage of ground. |
|--------|--|---|
| 6.3 | Methods and material for containment and cleaning up: | Take up mechanically and dispose of according to local/state/federal regulations. Do not flush away with water. For small amounts: Absorb with a neutral (non- acidic / non-basic) liquid binding material such as diatomaceous earth and dispose of according to government regulations. For large amounts: Liquids may be recovered using suction devices or pumps. If flammable, only air driven or properly rated electrical equipment should be used. Clean any slippery coating that remains using a detergent / soap solution or another biodegradable cleaner. Silicone fluids are slippery; spills are a safety hazard. Apply sand or other inert granular material to improve traction. |
| | Further information: | Exhaust vapours. Consider explosion protection. Eliminate all sources of ignition. Observe notes under section 7. |
| 6.4 | Reference to other sections: | Relevant information in other sections has to be considered. This applies in particular for information given on personal protective equipment (section 8) and on disposal (section 13). |
| SECTIO | ON 7: Handling and storage | |
| 7.1 | Precautions for safe handling: | Avoid formation of aerosols. In case of aerosol formation special protective measures are required (exhausting by suction, respiratory protection). Spilled substance increases risk of slipping. Observe information in section 8. Ensure adequate ventilation. Must be syphoned off in situ. |
| | Precautions against fire and explosion: | Flammable vapours may accumulate and form explosive mixtures with air in containers, process vessels, including partial, empty and uncleaned containers and vessels, or other enclosed spaces. Keep away from sources of ignition and do not smoke. Take precautionary measures against electrostatic charging. Cool endangered containers with water. |
| 7.2 | Conditions for safe storage, including any Conditions for storage rooms and vessels: | incompatibilities Observe local/state/federal regulations. |
| | Advice for storage of incompatible materials: | Observe local/state/federal regulations. |
| | Further information for storage: | Store in a dry and cool place. Store container in a well ventilated place. |
| 7.3 | Specific end use(s): | No data available. |

according 1907/2006/EG, Article 31 Date of last alteration: 07.11.2022 Version: 1.3 (RU) Debubblizer-SI

| | General protection and hygiene measures: | Observe standard industrial hygiene practices for the handling of chemical substances. Avoid contact with eyes and skin. Preventive skin protection recommended. Remove contaminated, soaked clothing immediately. Clean work areas regularly. Provide emergency shower and eye-bath. Do not eat, drink or smoke when handling. | | | |
| | Personal protection equipment: | | | | |
| | Respiratory protection: | If inhalative exposure above the occupational exposure limit cannot be excluded, adequate respiratory protection equipment must be used. Suitable respiratory equipment: Respirator with a full face mask, according to acknowledged standards such as EN 136. Recommended Filter type: Gas filter type ABEK (certain inorganic, organic and acidic gases and vapors; ammonia/amines), according to acknowledged standards such as EN 14387 In case of mist, spray or aerosol exposure wear suitable personal respiratory protection and protective suit. Suitable respiratory equipment: Respirator with a full face mask, according to acknowledged standards such as EN 136. Recommended Filter type: Combined filter type ABEK-P2 | | | |
| | | (certain inorganic, organic and acidic gases and vapors; ammonia/amines; particles), according to acknowledged standards such as EN 14387 Observe the equipment manufacturer's information and wear time limits for respirators. | | | |
| | Eye protection: | Tight fitting protective goggles. | | | |

negative

(Test system: chromosome aberration assay (in vivo), Species: Rat, Strain: Sprague-Dawley, Application Route: Intraperitoneal, Cell type: bone marrow cells, Method: OECD 475, Source: test report)

11.1.7 Carcinogenicity Assessment:

Dete en euketenese

Data on substances: Hexamethyldisiloxane: For this endpoint no toxicological test data is available for the whole product.

Animal tests have not revealed any carcinogenic effects.

NOAEC: >= 33,2 mg/l

NOAEC = NOAEC (carcinogenic effects relevant for humans)

(Test system: carcinogenicity study, Species: Rat, Strain: Fischer F344, Application Route: by inhalation, Route of administration:

(vapour), Test period: 2 a, Frequency of Treatment: 5 d/w, hours/day: 6, Method: OECD 453, Source: test report)

11.1.8 Reproductive toxicity Assessment:

Data on substances: Hexamethyldisiloxane: For this endpoint no toxicological test data is available for the whole product.

Animal tests have shown no indications of possibility of damage to embryo and impairment of fertility.

Reproductive Toxicity/Fertility

NOAEC: >= 33,2 mg/l

NOAEC = NOAEC (fertility)

(Test system: Two-generation study, Species: Rat, Strain: Sprague-Dawley, Application Route: by inhalation, Route of administration: (vapour), Frequency of Treatment: 7 d/w, hours/day: 6, Method: EPA OPPTS 870.3800+870.6300, Source: test report)

Reproductive Toxicity/Development/Teratogenicity

NOAEC (developmental): 10,6 mg/l

NOAEC (maternal): >= 33,2 mg/l

(Symptoms/Effect: Pups: lack of habituation, Test system: Reproduction and Fertility Effects + Developmental Neurotoxicity Study, Species: Rat, Strain: Sprague-Dawley, Application Route: by inhalation, Route of administration: (vapour), Frequency of Treatment: 7 d/w, hours/day: 6, Method: EPA OPPTS 870.3800+870.6300, Source: test report)

11.1.9 Specific target organ toxicity (single exposure)

Assessment:

For this endpoint no toxicological test data is available for the whole product.

Data on substances: Isopropanol: Result/Effect

Page 10 of 15 Printing date: 15.06.2023

> Exposure routes: by inhalation target organs: Central nervous system Vapours may be narcotising. Source: ECHA

11.1.10 Specific target organ toxicity (repeated exposure) Assessment:

> Data on substances: Hexamethyldisiloxane:

For this endpoint no toxicological test data is available for

In animal experiments with repeated exposure no effects with relevance for humans were observed.

Result/Effect NOAEL: >= 1000 mg/kg NOAEL = NOAEL (relevant to humans) (Test system: Subacute study, Species: RatApplication Route: Oral, Route of administration: gavage, Test period: 28 d, Method: OECD 407, Source: test report) NOAEL: >= 1000 mg/kg NOAEL = NOAEL (relevant to humans) (Test system: Subacute study, Species: RatApplication Route: dermal, Test period: 28 d, Frequency of Treatment: 5 d/w, hours/day: 6, Method: OECD 410, Source: test report) NOAEC: > 33,2 mg/l NOAEC = NOAEC (relevant to humans) (Test system: chronic study, Species: RatRoute of administration: (vapour), Test period: 2 a, Frequency of Treatment: 5 d/w, hours/day: 6, Method: OECD 453, Source: test report)

11.1.11 Aspiration hazard

Assessment:

For this endpoint no toxicological test data is available for the whole product.

11.2 Information on other hazards

Endocrine disrupting properties 11.2.1

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

No data available.

The substance does not fullfill the PBT criteria. The substance does not fullfill the vPvB criteria.

recycled or re-used. Observe local/state/federal

Isopropanol:

This substance is not considered to be persistent, bioaccumulating and toxic (PBT). This substance is not considered to be very persistent and very bioaccumulating (vPvB).

12.6 Endocrine disrupting properties

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 13: Disposal considerations

 13.1 Waste treatment methods
 13.1.1 Material Recommendation: Material that cannot be used, reprocessed or recycled should be disposed of in accordance with Federal, State, and local regulations at an approved facility. Depending on the regulations, waste treatment methods may include, e.g., landfill or incineration.
 13.1.2 Uncleaned packaging Recommendation: Completely discharge containers (no tear drops, no powder rest, scraped carefully). Containers may be

| | | ns/legislation specific for the substance or mixture |

National and local regulations must be observed. For information on labelling please refer to section 2 of this document.

15.2 Details of international registration status

according 1907/2006/EG, Article 31 Date of last alteration: 07.11.2022 Version: 1.3 (RU) Debubblizer-SI

Page 14 of 15 Printing date: 15.06.2023

Relevant information about individual substance inventories, where available, is given below.

| Japan: | ENCS (Handbook of Existing and New Chemical Substances): |
|----------------------------------|--|
| New Zealand: | This product is listed in, or complies with, the substance inventory. NZIOC (New Zealand Inventory of Chemicals): This product is listed in, or complies with, the substance inventory. (For a correct interpretation of the New Zealand status, additional information like GHS classification or Group Standard is required.) |
| Australia: | AIIC (Australian Inventory of Chemical Substances): This product is listed in, or complies with, the substance inventory. |
| China: | IECSC (Inventory of Existing Chemical Substances in China): This product is listed in, or complies with, the substance inventory. |
| Canada: | DSL (Domestic Substance List): |
| Philippines: | This product is listed in, or complies with, the substance inventory. PICCS (Philippine Inventory of Chemicals and Chemical Substances): |
| United States of America (USA): | This product is listed in, or complies with, the substance inventory. TSCA (Toxic Substance Control Act Chemical Substance Inventory): All components of this product are listed as active or are in |
| Taiwan: | compliance with the substance inventory. TCSI (Taiwan Chemical Substance Inventory): This product is listed in, or complies with, the substance inventory. General note: The Taiwanese chemicals regulation requires a phase 1 registration for TCSI-listed or TCSI-compliant substances if imports to Taiwan or manufacturing in Taiwan exceed the trigger quantity of 100 kg/a (for mixtures to be calculated per each ingredient). It is the duty of the importing/manufacturing legal entity to take care of this obligation. |
| European Economic Area (EEA): | REACH (Regulation (EC) No 1907/2006): General note: the registration obligations for substances imported into the EEA or manufactured within the EEA by the supplier mentioned in section 1 are fulfilled by the said supplier. The registration obligations for substances imported into the EEA by customers or other downstream users must be fulfilled by the latter. |
| South Korea (Republic of Korea): | AREC (Act on Registration and Evaluation of Chemicals; "K-REACH"): Please approach your regular WACKER contact for more detailed |

SECTION 16: Other information

| 16.1 | Material | The details in this document are based on the state of our knowledge at the time of revision. They do not constitute an assurance of the described product properties in terms of statutory warranty requirements. |
|------|----------------------|--|
| | | The providing of this document to a recipient does not relieve the recipient of his or her responsibility toward compliance with all laws and stipulations applicable to the product. This applies in particular to the further sale or distribution of the product or substances or items containing the product, in other jurisdictions and with regard to the protection of third-party intellectual property rights. If the described product is processed or mixed with other substances or materials, the details stated in this document cannot be conferred to the resultant new product unless this has been expressly mentioned. If the product is repackaged, the recipient is obligated to additionally provide the required safety-related information. |
| 16.2 | Further information: | Commas appearing in numerical data denote a decimal point. Vertical lines in the left- hand margin indicate changes compared with the previous version. This version |

information.

supersedes all previous versions.

Page 15 of 15 Printing date: 15.06.2023

according 1907/2006/EG, Article 31 Date of last alteration: 07.11.2022 Version: 1.3 (RU) Debubblizer-SI

Explanation of the GHS classification code:

| Flam. Liq. 2; H225: | Flammable liquids Category 2; Highly flammable liquid and vapour. | |
|--------------------------|---|--|
| Aquatic Acute 1; H400: | Short-term (acute) aquatic hazard Category 1; Very toxic to aquatic life. | |
| Aquatic Chronic 2; H411: | Long-term (chronic) aquatic hazard Category 2; Toxic to aquatic life with long lasting effects. | |
| Asp. Tox. 2; H305: | Aspiration hazard Category 2; May be harmful if swallowed and enters airways. | |
| Flam. Liq. 2; H225: | Flammable liquids Category 2; Highly flammable liquid and vapour. | |
| STOT SE 3; H336: | Specific target organ toxicity - single exposure Category 3; May cause drowsiness or dizziness. | |
| Eye Irrit. 2A; H319: | Serious eye damage/eye irritation Category 2A; Causes serious eye irritation. | |
| Aquatic Acute 2; H401: | Short-term (acute) aquatic hazard Category 2; Toxic to aquatic life. | |
| Aquatic Chronic 2; H411: | Long-term (chronic) aquatic hazard Category 2; Toxic to aquatic life with long lasting effects. | |
| Acute Tox. 4; H332: | Acute toxicity Category 4; Harmful if inhaled. | |
| Eye Irrit. 2A; H319: | Serious eye damage/eye irritation Category 2A; Causes serious eye irritation. | |
| | | |

| Classification: | Rationale: |
|--|------------------------|
| Long-term (chronic) aquatic hazard, Category 2 | Calculation method |
| Flammable liquids, Category 2 | On basis of test data. |
| Serious eye damage/eye irritation, Category 2A | Calculation method |
| Aspiration hazard, Category 2 | Calculation method |
| Short-term (acute) aquatic hazard, Category 1 | Calculation method |
